

Serious Protection From Pest Entry And Easy Maintenance Access

The DEFENDER Access+

Premium Vent Cover

Patent Pending Protection

Defense Against Squirrel and Bird Entry

Model DFRP80W

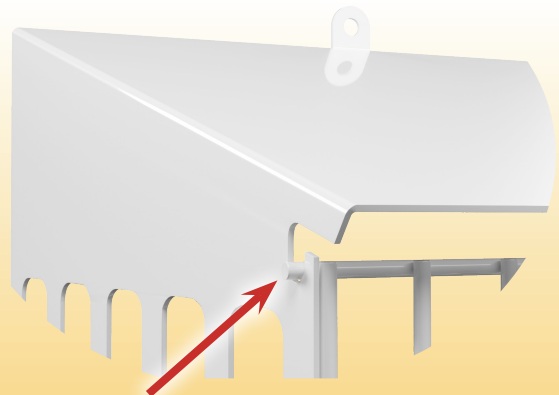

Lasting Performance

Zinc coated steel that is also powder coated delivers lasting protection for existing terminations. Patented vertical bars keep creatures out while minimizing lint buildup and making it easy to clean. For full system maintenance, the easy opening front gate provides clear access for professional equipment.

Two sizes—with dimensions of 6.5, and 8 inches—allow for an exact fit and universal application so the vent termination is aesthetically pleasing. Extra fastener holes make installation quick and easy.

- **No-Tool-Required Maintenance Access**
- Provides an Extra Level of Weather Protection
- Deters Bird and Squirrel Entry
- Helps Hide Unsightly Vents
- Works on all Siding Types
- Available in Brown, Tan and White

Easy Opening Front

The drop-notch front gate (patent pending) makes access for brushes and duct cleaning equipment a breeze. With the easy opening vertical bar gate, there's no need to remove fasteners from the wall for cleaning.
